Dear Harborough Arts Cluster,

I am currently in the process of applying to undertake a PhD at De Montfort University (DMU). My proposed project is titled "Artful Misconceptions: Exploring Perceptions of the Value of Art and Design and Their Impact on Student Engagement."

As part of this research, I am interested in using zines as a research tool to gather rich qualitative data and to support participants in expressing their views in a creative and personal way. I plan to work primarily with secondary school students to explore their perspectives on creativity and creative subjects in school, alongside some key stakeholders such as parents and teachers.
I wondered whether any of your artists might be interested in being involved in a small number of zine-making workshops if the project goes ahead.

If this sounds of interest, I would be very happy to share more detailed information about the proposed research and to discuss possible ways of working together.

Many thanks for your time, and I look forward to hearing from you.

Best wishes,
Hannah
