Welcome

to Harborough Artists Cluster Open Studios 2026.

Across **13 studios** and **36 artists**, we're opening our doors to show you where and how we work.

Follow the trail through Market Harborough and the surrounding district to discover painters, sculptors, printmakers, and more.

Some are just starting out, others have decades of practice. Each studio is a chance to see work as it's being made, ask the questions you're curious about, and have real conversations about process and ideas.

We welcome everyone: collectors, first-time visitors, families and fellow artists.

Come explore with us.

Harborough Artists Cluster

A collective of professional artists, brought together by a shared passion for creativity and connection. Our members span generations, from our most experienced artists, with decades of practice to emerging voices at the beginning of their artistic journeys.

Working across a **wide range of mediums**, including painting, drawing, printmaking, textiles, ceramics, photography and mixed media, we celebrate both traditional craftsmanship and contemporary approaches.

Rooted in the **local community**, the cluster provides a supportive space to share ideas, skills and inspiration. Our work reflects the diversity of our individual practices while maintaining a strong sense of collective identity.

Through exhibitions, events, and collaborations, we aim to make art **accessible**, **engaging** and **meaningful** for all.
